## Webelos Experience

What a wonderful weekend it was!! The weather was perfect with the autumn colors at their peak, sunshine and warm temperatures. The day started at 6:30 AM as we gathered to travel up to the Stearn's campground. Once there we pitched our tents and set up our campsite. There were over 2300 participants for the entire event. To see all the campers was awesome. After camp was set up the activities began. The scouts made model rockets, and then had them launched. The rockets went so high in the sky you couldn't see them until the parachutes deployed and they started to descend. Some of the other activities included seeing and learning about Ham radio operators, how to be a fur trapper, and the Civil Air Patrol. There were radio controlled airplanes and helicopters flying all day doing all sorts of amazing stunts. There was an achievement midway where the scouts had opportunities to earn more than 34 requirements in areas like Naturalist, Geologist, Handyman and Engineer, just to name a few. We had great food. Each den organized and served a meal to our group of 23 campers. Saturday was topped off with a rock n roll concert held in Stearn's natural amphitheater. The concert ended with a bang!!... Fireworks that were spectacular. Everyone had the best seat in the house, and no one had to worry about where to park. After returning to our campsite we enjoyed hot chocolate and treats. The night was cool and clear, so many stars to see. We broke camp after a scrumptious breakfast. Our camping experience was over, but the memories will last a lifetime. Patches will be awarded at the November Pack meeting. Participants were: Peter Wear, Sean Casey, Abraham Humnick, Ryan Burgett, Ryan Tisthammer, Justin

White, Daniel Glower, Greg Camp,  
Daniel Fields, Matt Miner, Harrison  
Smith, and their parents.
